

## HIGH QUALITY MACHINING SERVICES WITH THE SAME EXCEPTIONAL LEAD TIMES

BY OUTSOURCING  
YOUR MACHINING TO  
QUERCUS, YOU CAN  
FREE UP VALUABLE  
TIME, MEANING YOU  
CAN PRODUCE MORE  
PRODUCTS.

At Quercus we've built our reputation by offering a first class service. But did you know that to help enhance our offerings we now also offer a top quality machining service? Whether you're after simple PAR or intricate mouldings, the modern, computer controlled facility that we use helps to provide a cost-effective solution for our customers. This advanced facility is operated both day and night by highly skilled machinists enabling us to offer almost any moulding, in any timber (including MDF and engineered sections) to your specification, with no minimum order requirement.

By outsourcing your machining to Quercus, you can free up valuable time, meaning you can produce more products and subsequently increase turnover and profitability.

We have a wide range of additional services that complement our high quality machining services. And, best of all, we offer the same exceptional turnaround times on each one - 5 to 7 days! This combination of exceptional lead times, versatility, and high quality is one we are very proud of.

### **Cutting to Size:**

Our cutting edge technology ensures we achieve top-notch accuracy and consistency, no matter what timber or size you require.

### **Sheet Material Cutting:**

We offer a full machining service for all sheet materials including straight and curved cutting, moulding (including MDF), Tongue & Groove (4 edges), drilling, CNC routing and shaping.

### **Priming:**

A full knotting & priming service is available with no minimum order quantity.

### **Fire Treatment:**

Protection against fire is increasingly important for safety, peace of mind, and to comply with ever-changing building regulations. We can help you specify the correct treatment depending on your project, and the timber products you are using. We offer reliable fire protection with our range of proven fire retardant impregnation treatments for a wide range of construction projects.

We can offer all of these services, but should you require something slightly different we're always willing to discuss bespoke projects, to help you find a cost-effective solution that meets your personal requirements.
